DETAILED ACTION

Election/Restrictions

Status of Application, Amendments and/or Claims

The amendment filed 28 December 2001 (Paper No. 8) has been entered in full. Applicant's election of Group IV (claims 6-18,23 and 24) in Paper No. 8 is acknowledged. Claims 1-27 were cancelled. New claims 28-34 are pending. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Further restriction to one of the following inventions is required under 35 U.S.C. 121:

Claim 33 is generic to a plurality of disclosed patentably distinct species (erythropoietin) comprising native erythropoietin, recombinant human erythropoietin and animal erythropoietin. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1647

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
